

## **Military and First Responder's Program**

### **Horses Helping Heroes**

“Where we love is home, Home that our feet may leave, but not our hearts.”

~Oliver Wendell Holmes, Sr.

Our military and first responder's program, Horses Helping Heroes, was developed to focus on those who serve our country and communities.

Servicemen and women are away from their family on average of six months at a time. When those serving return home they often experience difficulties reintegrating into their previous life, both home and community. Families can also experience similar difficulties accumulating from the deployment itself.

First Responders entrench themselves into their work of saving others, in disasters that are unimaginable for both themselves and their family members.

Horses Helping Heroes is dedicated to providing services to military families in their anticipation of deployment, during deployment, and reintegration and assisting those who serve as first responders in daily life or during times of catastrophic and tragic happenings.

With both these populations, families learn vital communication and coping skills, healing, and hope to assist them during this necessary time of their lives.

Mane Support feels that it is our responsibility and honor to provide the services to our men and women protecting our country and communities.
